#### REVISED STATUTES OF KENTUCKY. NEW EDITION.

BY HON, R. H. STANTON.

This valuable work, prepared with great accuracy and labor, hy the Hoa. R. H. STANTON, of Mays. ville, Ky., contains the Revised Statutes of Keatucky as originally adopted in 1851-1852, with all the amead ments thereto, and general laws of the State, enacted since and up to the present time; thus ambodying the whole Statutory System now in force in the State. In addition to the very great convenience of having all the Statutory Law condeased into a siaglo work well arranged, the text of these volumes is illustrated and earliched by full and copions notes of the Decisions of the Court of Appeals of Kentucky, settling the coastruction of such provisions as may heretofore have been of doubtful or uncertain meaning. Those en gaged in the administration of the law in Keatucky. \$12 no will be saved much inbor of research by thus having, lu a small compass and condensed form, the whole practical working of the Statutory System of the State. In truth, the work will be found of great value to all classas of persons.

The work is comprised in TWO ROYAL OCTAVO VOLUMES, priated with new, clear type, upon the very best paper, and bound in superior law binding

### THE VESPER GAS, OR AIR LIGHT.

The Chenpest, most Brilliant, and mast Conveni-

ent Artificial Light in the World! Tille Vesper Gas Light has won for itself a reputation of relegance, economy, safety, and simplicity lar boyond any other artificial light. The Vesper Gas fiame and distures precisely resemble in form tifose of coal gas; but in brilliancy and purity of light It possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimining of wick; and the construction of the fixtura is so simple that it is not liable to get out of order, and a child can manage if readily. The gas burned in the vesper lixtures is generated from pure coal oil, without any admixture of alcohol or other toreign lagredient. It is entirely free from odor while burning, as, by a simple contrivace, the vapor of the oil is nulxed with the atmosphere, producing perfect combustion and ninost intense light. The lighthas been pronounced, by those who have had it in constant usa for months, as most pleasant in the eye wible reading or sewing, there being no flicker or unsteadiness in the flame. The Vesper has hight is portable, and can be used in town or country—in fact, wherever ortificial light is required. The flytures themselves are ndapted in styles to suit all tastes, from the plain single-light turner to the most costly chandelier. Each chandelier is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the plain single-light turner to the inost costly chandelier. Each chandelier is perfect in the cheap single-light turner to the inost costly chandelier works in themselves. They are sold at prices which do not exceed the cost of the ordinary gas disturce of similar style and orunaonation. A price hist will be each case of dealers on application. fullE Vesper Gas Light has won for itself a reputation

In a short time the II. R. reported the said

bilt passed by the H. R.

Mr. GILLISS—Enroltments—reported the following bilis correctly enrolled, viz:

A bill for the benefit of Robert Eastham late

sheriff of Lawrence county.

A bill for the benefit of W. G Woodson. A bill to amend and reduce into one the laws in relation to changes of venue in Criminal and Civil cases in Circuit Courts.

Mr. JOHNSON offered a resulution to send a message to the H. R. to inform them that the Senate was ready to adjourn: adopted, and Messrs. JOHNSON and JENKINS were ap-

pointed a committee to bear the message.

Messas. HITT und CLAY, of the H. R, anuounced the readiness of the H. R. to adjourn, and that they had also appointed a committee to wait on the Governor and inform him that the

Legislature was ready to adjourn.
Whereupon, on motion of Mr. JOHNSON, a committee was appointed by the Speaker to aet with the Il. R. committee, to wait on the Gov.

Messra, JOHNSON, BRIJNER and READ constituted the committee.

Mr. GILLISS arose and suid:
Mr. Speakea-I see in the morning prints of
the city chronicling our action here on Saturday
a resolutian of this body, thanking and complimenting me for the munner in which I have endeavored to discharge the duties assigned me as chairman of the joint committee on Enrollments. As the moment of our final adjournment is near at hand, I trust I shall be indulged by the Senate in a few remarks dictated to my feelings by the resolution referred to.

Highly complimentary, sir, as is this resolu tion, and gratifying as I acknowledge it to he to my feelings, indorsed as it is by this hody, still, sir, I could not have desired that my humble ef forts to discharge my duty here in the humble sphere ussigned me, should have been thus con spicnously marked out and honored by the Senate whilst the labors of other Senators on this floor, who have labored with zeal, energy and untirin industry, and doubtless with far greater success and ability in the diversified fields of our labor and duties here, should remain unmarked and un

noticed by this Senate.
Whilst I receive this testimonial of the ap preciation in which the Senate holds my humble efforts to be useful to this body and to our common constituency with greatful feelings, it has air, to me an additional priceless and inappreciable value. Coming from the source whence it eminates; offered as it is here by the distinguished and accomplished Senator from Kenton; a Senator whose party political tenets and my own are known here to he widely separated as the ice-clad poles with a burning zone between, yet sir, to that Senator, to his acknowledge ability his enlarged and liberal views, and ripe experi ence, iu most of the leading questions of general legislation for the State, (outside of our respective party faiths,) to him I have looked as to

my political mentor. If, sir, any real merit attaches to the efforts of the Enrolling committee to discharge its duties successfully, it is in a very eminent degree at tributable to the faithful, prompt and energetic manner in which the chairman of the joint commiltee was aided and sustnined, by the members of the committee of the House of Representa tives, all of whom discharged their duties with great promptitude; and without intending any Invidious distinction, I may be permitted to men-tion the accomplished chairman of the House branch of the joint committee, the Representa tive from Hickman, the young and talented Rep resentative from Boone, and the Representatives from Breckinridge, Fleming, Nelson, Lewis and

the aenior Representative from Shelby.

Passing, Mr. Speaker, from a further uotice of the resolution, permit me to avail myself of the present moment to return to the honored Speaker, and every member of the Senate, my heartfelt and sincere thanks for the continued kindness they have at all times, and on all occusions, during our associated lahors here, bestowed upon me. Soon, sir, we are to go hence to a happy reunion with family and friends. I to my far off home in the distant mountains, where I shall bear with me, sir, fresh and ever endur ing the fond recollection of the happy associations I have formed with Senators here; associa tions and uttuchments which will last with life. and die only when the last pulse of life shall cease to throb within the core of this hosom.

Permit me to say to my brother Senators present, and to all with whom I have had the honor to serve, that when we part, be assured that you each carry with you the profound respect, the sincere friendship, and devoted attachment of one whose highest ambition is that it should be said of him, as Philips said of Napoleon, "That he never forsook a friend, nor forgot a

I trust I will be excused for referring more par-ticularly to those passed during the present session, immediately connected with, and intended to improve the common school system. Far more interesting are those laws and that system to the people of the State than all others .--Many years ago the idea was conceived, and years after the system was inaugurated; but like many other noble systems, on account of unwise legislation and other esuses unnecessary to detail, it languished even before it had emerged from its infancy. The patriotle framers of our present constitution, deeply impressed with the importance of the subject, and the necessity of reseuing the fund set apart for its support from the control and caprice of the Legislature, wisely incorporated into that instrument a provision declaring that that fund should be forever held sacred. Since that time the system has will, in my opinion, cheerfully respond to the call.

This beneficeut system will prove a blessing to this and future generations. Learning is now, and will continue to be, within the reach of the humblest child of the humblest parent. The reception took place at the residence of Mr. A. E. Laing, in Nineteenth street. Judge Edmonds, Audrew Jackson Davis, Mrs. Button, and other notable spiritual lights, were present. During the even-ing Mr. Owen made a brief speech-and it was the only formal speech made—in which he re-counted the inducements which led him to spir-itualism, which mainly was a repetition of the facts set forth in the preface to his late book en-titled "Footfalls on the Boundaries of Another World." At the close of the speech he atluded to the story lately going the rounds of the press, about an inmate of the Indiana Lunaite Asylim having been aeen miles away from the institu-tion, while his presence in the Asylum was stoutly affirmed by the managers. He expressed his belief in the two fold presence of the luna-tic, both from his acquaintance with the parties testifying to having seen him distant from the Institution, and from the fact being no more singular than seemingly impossible spiritual phenomena that had come under his own observation.—N. ### HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit lers for the last year amounted to over a halt-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sunction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements

and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved

a Godsend to regions where fever and agne and various other bilions complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspensia and like discases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purities the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable tor the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy dischurge

of the functions of nature. Elderly persons may use the Bitters daily as per directions on the hottle, and they will find in it a stimulant pecutionly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic. and rejuvenating generally. We have the evidence of thousands of agrd men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wenr of body and mind is generally aggravited. Here then, is a necessity for a stimulant to recupe rate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanem increase of hodily strength.

All those persons, to whom we have particu larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoa. dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterteits, bul ask for Hostitter's Celebrateu Stomach Bittens, and see that cach bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and slamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Prepared and sold by HOSTETTER & SMITH, Pittaburgh, Pa., and sold by nli druggists, grocers, and dealers generally throughout the United States, South A'merica, and Germany.

Messrs. Talleot & Underhill, Osucgo, A. 1.

Gentlemen: I take pleasure in saying to you that the Water Wheel, (four feet in diameter double Issued) purchased of Mr. Samuel Reynolds, the Inventor, is now in operation and is giving me entire satisfaction, coming fully up to what it was recommended to do.

My Ilestrial with it was at a very tow stage of water, only three and a half feet head. It gave bull power, for one rou 42 inch Burrs, Bolts, Smut Mill, &c., with the gate 34 open. When the water rose so as to give ane five feet head I havefull for two run of Burrs, doing tull work, so that under the full head (axfeet) I have a surplus of power.

I have run in backwater to the depth of four feet with no perceivable loss of power. This Wheel Is put in place of a thirteen feet diameter Breast Wheel, and gives fully double the power with about he same amount of water fluttledd. I therefore take pleasure in paying you for it, belleving that I now have a wheel that will last me 20, perhaps 50 years.

A JUST COMPLIMENT FROM THE RIGHT SOURCE. The Augusta (Ga ) Chronicle and Sentinel introduces the platform adopted by the Constitutional Union Convention at this city with the following commendatory remark:

THE VOICE OF KENTUCEY .-- Below we give the platform of principles, set forth by the Consti-actional Union party of Kentucky, in their Convention at Frankfort, the 22d February, which we copy from the Louisville Journal. And, thus, portions of the public revenue de rived from the people, tens of thousands in amount, are turned into a corruption fund, to stille the voice and defeat the will of the honest

and independent voters. These evils and abuses, great and gross as they manifestly are, may be tolerated and liberty may survive, and the country may prosper for a season, while the great body of the people conof some of the indirect and more remote consquences of the abuses nbove enumerated. The of public morals and diffused a mcrcenary spirit

over the country hared by the magnitude of the spoils, the rewards of partisan services, thousands take to politics as a profession, a trade, a livelihood. An army of political mercenaries and adventurers is thus recrnited, who, by concerted action, is often able to control the most important elections, and, when surcessful, virtually acquire the direction

and control of public affairs. Most of the best and ablest meu of our coun try under such circumstances retire in disgust from the fields of politics—the public offices are for the most part filled with ignorant and incompetent partisans without other merit. The able and patriotic men occasionally find a place in The are authorized to aunonuce Harry I.

Address and Platform of the Tennessec | questions of foreign or domestic policy. Such lestions have become of inferior or subordinate oncern, and he is reduced to the position of Chief Justice of a Spoils Court, and his time consumed in adjusting the conflicting claims of worthless partisans. To this and other causes before referred to may be ascribed the disordered condition of the Post-office Department-the and the loss of hundreds of millions to the country from the want of wise and stable revenue policy-nor ought it to be matter of surprise in such a state of things that extravagance and wastelulness in the public expenditures should exist to an alarming extent, and that frauds and corruptions abound in high places.

But the correction of the various nbuses in the administration of the government, important as it is to the honor and welfare of the country, sinks into comparative insignificance when w turn to the overshadowing evil, the practical and paramount question of the day and of the times It is not a question of abuses in the practice o the government, it is a question concerning the existence of the government itself, which ha been brought into imminent peril of dissolution by the same causes and influences which have nastened the downfall of all preceding Republics In an evil hour and at a time of rare tranquility and exemption from party strife and excitemen the result of the compromise measures of 1850, the Missouri compromise line of 1820 was repealed. It would be useless to point ont or suggest the motivea and designs of the author of and discord upon the subject of slavery which had been so happily quieted in 1850.

'I'be sectional hate and alicnation engendered in the protracted strife add greatly to the difficulties in restoring the wonted harmony of the country; and to make the prospert of accum finciole operate with their usual effect in stimulating the antagonistic parties to put forth all their euergies in maintaining the conflict. All these circumstances combined have created painful anxieties as to the future in the minds of thousands of pstriotic citizens in both see ions. It is worse than tdle to say that the Unon is in no danger. It may be mischevious to lull the people into security, by proclaiming that the Union cannot be dissolved—that the associ-ations of the past—the anticipation of the glorious destiny which awaits us as a nation will prevent it-that the ties of kindred blood of a comnon lineage and language will prevent it-that the enormity of the crime of disurion against patrons, and as many new ones as can make it to their mankind will prevent it, and that if nothing interest to patronize as. else should avait, the magnitude of the materi al interest dependent upon the preservation of the Union will prevent its dismemberment. The Inion cannot be saved by such teaching. should be remembered that the ties of blood and natural affection are often broken by repeated wrongs—that a family quarrel, of all others when entered upon, is the most bitter and re-lentless-that a sentiment often proves stronger as a motive to action than material interests.— No: The safety of the Union depends upon the nuited action and energies of all good men, North and South, and with the blessing of the God of our fathers upon their efforts, the Union can and will be preserved.

ITThe closing yoars of life are often rendered wretched by silments which are trifling in hemselves and easily cared if taken in time. Affection of the liver, stomach, and other or gans concerned in digestion, are the most frequent. They naturally make the sufferer nervons, irritable and complaining, and relatives and friends are forced to bear the brunt of their ill-humor. The use of Hostetter's Colebrated Stomach Bitters will prove an efficient remedy for this evil. It will not only strengthen the whole physical organization, but entirely cure the most obstinate cases of Indigestion, Diarrhoa, Dysentery, and Liver Complaint. The lirst playsicians in the country are loud in their praise of this preparation. Another recommendation of the Bitters is that it is so palatable to the taste that it may be used even as a beverage.

which neutralizes this malarions poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this alllicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Aguc, Periodical Headache, or Bilions Headache, Bilions Fevers, Neuralgia, Rheunatism, Gout, Blindness, Toothacho, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysteries, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Aoue Cure" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excre-This it accomplishes by stimulating the excretories to expel the virus from the system; and these orgsus by degrees become habited to do this their office of their own accord. Hence arises what we term neclinatation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.
